Our Guarantee

It will not be necessary to insure packages of plants against loss, as we guarantee all Shrubs, Plants, Bulbs, and Seeds that we send out to points within the United States to reach purchaser in good condition, when forwarded by mail or express. After goods are delivered to purchaser in growing condition our responsibility ends. Guarantee protects you.

Parcel Post Shipments, with Soil on Roots

If inconvenient for any purchaser to receive an express shipment, then mailable plants may be sent by parcel post with soil on the roots, if customer so orders it, and adds double amount of postage for plants without soil, as explained in table (page 2).

Express Shipments

Express shipping is an advantage and is recommended when it is convenient to receive plants in this way, and when the larger plants are ordered. Express shipping removes any limitations that may surround sending plants by mail.

Remittance With Order

Please send sufficient money to cover your entire order. The safest way is by Postoffice Money Order or Express Money Order. Postage stamps may be sent for small amounts provided two cents extra is sent with the remittance. Send perfect stamps only.

Our Free Offer

If you send us an order amounting to \$1.00 from a friend or neighbor who is not now a customer of ours, we will send you any one of the beautiful Roses shown in color on the face of cover of this book, free. If order from new customer amounts to \$2.50, we will send you any three of the Roses. If order amounts to \$5.00 we will send you six Roses. (Roses 1-yr. size.)

Surprise Offer After-Season Sales

Propagating as we do six months in advance of the selling season, we must not be satisfied until we have taxed the limit of our capacity and made allowance for natural increase of business. As a result we generally have surplus of all kinds of plants and rather than carry this stock over, we hold a Clearance Sale beginning June 1, and make up Surprise Collections of miscellaneous plants at 98c per collection. In these 98c collections we give several dollars' worth of plants. Strictly our selection. Orders accepted any time during the spring for delivery June 1.

SPECIAL ATTENTION When sending orders besides your own—from friends or neighbors—please be sure to have these separate orders written on separate sheets. This will save time in our office in copying—possible mistakes—and help in making more prompt deliveries.

For a long time, a period covering more than fifty years, we have offered and furnished to the mail order buyers in this country, Roses and all kinds of floral and nursery stock. Our policy, long ago established, is to give the flower lovers of America a complete assortment of the finest stock that can be grown, together with the best possible service, and supplied at manufacturers' and growers' prices. We have established a clientele of which any concern may have reason to be proud, and we are taking this opportunity to express our appreciation of this successful existence which many thousands of customers have brought about.

It is with a natural pride therefore, that we present to you our new Year Book, which we believe is a catalogue prepared to introduce the garden spirit within the minimum expense. It is in brief a floricultural department store at your door, offering everything in the plant, bulb and seed line, and the sole opportunity of plant buyers to secure many things that make for important additions or complete gardens.

Years of experience in packing plants has resulted in methods enabling us to guarantee their safe arrival to all points in the United States. The guarantee this book carries is an asset with us, and a safeguard to you, giving absolute security to mail order buyers. We believe therefore, that this catalogue which we hope will be found pleasing and helpful is entitled to the consideration of all.

Instruction Book

How to Grow All Kinds of Plants

All will grow but with intelligent care will mature with very different and attractive results. Give them every advantage through knowing them thoroughly and helping them to reach that maximum development which our book of instructions will help bring about. 300 subjects, 150 pages. Price, postpaid, 24 cents.

Special Premiums

Our terms being cash with the order, enables us to give additional plants, bulbs, and seeds on orders amounting to \$1.00 or more, as follows: On \$1.00 worth of goods bought at single Plant, Bulb or Packet prices, select plants, bulbs or seeds to the value of 20 cents extra.
